Your first immigration consultation

A practical preparation checklist

Gather what you already have. Tick only the items relevant to your situation. You do not need a complete application package to start a conversation.

01 / Your goal

- ☐ Write your main goal in one sentence: visit, study, work, family or permanent residence.
- ☐ Note your current country, immigration status and the family members involved.
- ☐ List your three most important questions.

02 / Your timeline

- ☐ Note entry and exit dates, permit expiry dates and any stated deadlines.
- ☐ List previous applications, submission dates, decisions and refusals.
- ☐ Match each important date to the relevant document or confirmation.

03 / Relevant documents

- ☐ Have your current permit, visitor record and IRCC letters available, if applicable.
- ☐ Gather previous applications and refusal letters, where relevant.
- ☐ Note education, work history, language results and any job offer or admission letter.

04 / Before the meeting

- ☐ Confirm the format, date, time zone, fee and payment arrangements.
- ☐ Ask which documents are needed and how to share them securely.
- ☐ For an online meeting, check your connection and choose a private, quiet space.

Do not email passwords or sign-in codes. Do not include passport numbers or medical records in the website enquiry form. This checklist is not legal advice or an IRCC document checklist.
